### The District Agenda is comprised of four different sections:

The meeting will begin at 6:30 p.m. with the third section is called Vendor/Staff Reports. This section allows the District Engineer, and Attorney to update the Board of Supervisors on any pending issues that are being researched for Board action and vendors presentation of information from any potential or current contractor of the District. Fourth section called Consent Agenda. The Consent Agenda section contains items that require the review and approval of the District Board of Supervisors as a normal course of business. The fifth section is called Business Items. The business items section contains items for approval by the District Board of Supervisors that may require discussion, motion and votes on an item-by-item basis. The sixth section called Management Reports allows the District Administrator to update the Board of Supervisors on any pending issues that are being researched for Board action and vendors presentation of information from any potential or current contractor of the District. If any member of the audience would like to speak on one of the business items, they will need to register with the District Administrator prior to the presentation of that agenda item. Occasionally, certain items for decision within this section are required by Florida Statute to be held as a Public Hearing. During the Public Hearing portion of the agenda item, each member of the public will be permitted to provide one comment on the issue, prior to the Board of Supervisors' discussion, motion and vote. Agendas can be reviewed by contacting the Manager's office at (813) 397-5120 at least seven days in advance of the scheduled meeting. Requests to place items on the agenda must be submitted in writing with an explanation to the District Manager at least fourteen (14) days prior to the date of the meeting. The seventh section is called Supervisor Requests. This is the section in which the Supervisors may request Staff to prepare certain items in an effort to meet the District's needs. The final section is called Audience Questions, Comments and Discussion Forum. This portion of the agenda is where individuals may comment on matters that concern the District. The Board of Supervisors or Staff is not obligated to provide a response until sufficient time for research or action is warranted. IF THE COMMENT CONCERNS A MAINTENANCE RELATED ITEM, THE ITEM WILL NEED TO BE ADDRESSED BY THE DISTRICT ADMINSTRATOR OUTSIDE THE CONTEXT OF THIS MEETING.

Public workshops sessions may be advertised and held in an effort to provide informational services. These sessions allow staff or consultants to discuss a policy or business matter in a more informal manner and allow for lengthy presentations prior to scheduling the item for approval. Typically no motions or votes are made during these sessions.

Pursuant to provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this meeting is asked to advise the District Office at (813) 397-5120, at least 48 hours before the meeting. If you are hearing or speech impaired, please contact the Florida Relay Service at 1 (800) 955-8770, who can aid you in contacting the District Office.

Any person who decides to appeal any decision made by the Board with respect to any matter considered at the meeting is advised that this same person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which the appeal is to be based.

83 84 Celia Nichols then went over capital improvement project and said it is moving more slowly than she had hoped for. The main slowdown is the irrigation system, which LMP was not building to specifications; Ms. Nichols is having LMP revisit the installation. She also noted they had pulled water for the Riverview Drive entrance from a well farther down the road instead of just doing a sleeve under the road from the west side. The Board agreed they want the irrigation system built correctly and would not reimburse for mistakes made by LMP. The other issue is the irrigation needs to be separated by turf, shrubs, etc., and Ms. Nichols is working with LMP to complete this. Ms. Nichols went over additional landscape items; she stated the improvement should be completed by Thanksgiving. Mr. Howell asked to have an electrical receptacle installed at the new monument for holiday lighting. Ms. Nichols also reviewed the lighting plan for the entrance at Falkenburg.

### B. Consideration of Operations and Maintenance Expenditures October 2016

Mr. Howell stated that he had reviewed street light bills and they could not be condensed into one bill; the reason for the price differences is that the agreements were executed over many years and the rates went up and down. He compared their pricing to newer districts, and Parkway has less expensive pricing. Mr. Howell also noted that Aquatic Systems would attend the next meeting, and fish would be added to ponds in November.

The Board reviewed the O&M's.

This section occurred after the Vendor/Staff Reports during the meeting.

128 129

Mr. Howell stated that he had new resolution for Chair to sign, which allowed board members to contact the Sheriff's Office for trespassing; this Resolution was approved already at the last meeting. "No trespassing" signs were ordered and District Counsel is working on getting the Trespass Agreement in place with Sheriff. The entire process should be completed within 30 days.

135
136 Mr. Howell also said that he spoke to the father of the child who was fishing in the ponds, and that activity would cease.

Mr. Howell the asked the Board if they would like to cancel the 11/16 meeting because the newly elected supervisor could not participate until 11/2 by statute. The District could move the meeting to early December and then cancel the meeting for 12/28. The Board stated they would still like to meet on 11/16 because they would like an update on the Capital Improvement Project. The Board will play the December meeting by ear, as last year's meeting was cancelled last year because of the holidays.

### Parkway Center CDD Waterway Inspection Report

10/31/2016

#### **Management Summary**

The following 10 ponds within the Parkway Center CDD community were visually assessed during today's inspection: ponds #3, #4, #5, #7, #8, #9, #11, #12, #13 and #15 respectively.

During the cooler months, plants conserve their energy for food instead of growth. The lower temperatures slow down the process of photosynthesis, thus resulting in slower growth. Minor growth is still expected and will continue to be targeted during our routine visits. Please be advised that treatments are anticipated to be prolonged due to the plants conserving energy and not uptaking the selective herbicide as quickly.

In waters with high nutrient content, floating weeds can often exhibit weedy overgrowth behavior. Minor floating Water Lettuce was observed on ponds #12, #13 and #15, and minor Water Hyacinth was present on ponds #12 and #15. The Water Hyacinth on pond #12 has been reduced to less than <5% following previous treatments. The remaining Water Hyacinth on ponds #12 and #15 and the Water Lettuce on ponds #12, #13 and #15 will be treated during our upcoming routine visits and should clear within 21-30 days following treatment.

Common shoreline weeds such as Torpedograss, Alligatorweed and Pennywort were observed within several ponds within Parkway Center CDD community. Minor shoreline weeds were observed along the perimeter in each of the 10 ponds inspected during today's visit. The grasses on ponds #12 and #13 were treated during our prior visit on 10/12, ponds #3, #4, #5, #7, #8, #9 and #11 were treated during our visit on 10/19 and pond #15 will be treated during our upcoming routine visits. The grasses should clear from each site within 21-30 days following treatment. As the shoreline weeds naturally break down following treatment, they release their nutrients into the water column, thereby increasing the available nutrients and promoting Algal growth. Each of the ponds within the community will continue to be monitored for new Algal growth during our routine visits and treated on contact.

Minor Algal growth was observed in pond #5 during today's visit. The Algae will be targeted during our upcoming routine visits and should clear within 10-14 days following treatment.

Pond #4 was observed with minor submersed Vallisneria, ponds #7 and #8 were observed with minor submersed Slender Spikerush, and substantial submersed Hydrilla was present in pond #5. Hydrilla is a federal noxious weed, that can flourish into thick, dense surface mats. The submersed weeds in each of these 4 ponds will be treated during our upcoming routine visits and should become inactive within 14-21 days following treatment. The submersed weeds should then clear within an additional 4-6 weeks.

#### Recommendations/Action Items

- Routine Maintenance.
- Treat the floating Water Lettuce in ponds #12, #13 and #15.
- Target the remaining Water Hyacinth in ponds #12 and #15.
- Continue to treat the shoreline weeds on all sites within the Parkway Center CDD community during our routine visits.
- Monitor all ponds for new Algal growth during our routine visits and target on contact.
- Closely monitor ponds #3, #4, #5, #7, #8, #9, #11, #12 and #13 for new Algal growth following the decomposition of shoreline weeds.
- Target the Filamentous Algal growth on pond #5.
- -Target the submersed Vallisneria in pond #4, the Hydrilla in pond #5, and the Slender Spikerush in ponds #7 and #8.
